Purpose/Audience

This annual conference is developed to raise awareness of and disseminate knowledge about developments in the care of people with neurological conditions. Physicians, health-care providers and medical students involved in the management of neurological diseases can benefit from attending this program.

Intended Outcome: We want to positively impact patient care in Pennsylvania by providing up-to-date information to all health-care professionals caring for patients with neurological conditions.

Objectives

At the conclusion of the program, participants should be able to:

Explain the recent advancements and guideline changes in the field of vascular neurology. Topics include epilepsy, movement disorders, multiple sclerosis, headaches, dementia, concussion, chronic inflammatory demyelinating polyneuropathy (CIPD) and genetics.

Discuss issues regarding drug pricing.

Illustrate how to implement changes in coding for chronic care including telephone care.

Address ethical issues associated with end-of-life care.

Accommodations/Room Block

Accommodations are the responsibility of the program participant.

A block of rooms has been reserved at:

The Hotel Hershey
100 Hotel Road
Hershey, PA 17033

Deadline

Tuesday, August 7, 2018
