

:: Saturday & Sunday, October 24 & 25, 2015 ::

PENNSTATE HERSHEY
 College of Medicine

Sponsored in cooperation with Penn State College of Medicine and Potomac Center for Medical Education and the Pennsylvanian Neurological Society

The Hotel Hershey
100 Hotel Road
Hershey, PA

Purpose

The mission of this program is to raise awareness of and disseminate knowledge about developments in the care of people with neurological conditions.

Audience

Physicians and health-care providers involved in the management of neurological diseases can benefit from attending this program.

Objectives

At the conclusion of the program, participants should be able to:

- ▶ Recognize the latest treatments for epilepsy and select the appropriate treatment
- ▶ Choose the appropriate diagnostic algorithm for acute stroke
- ▶ Differentiate among common or overlapping movement disorders

Accommodations

Accommodations are the responsibility of the program participant.

Room Block

A block of rooms has been reserved at:

The Hotel Hershey

100 Hotel Road
Hershey, PA 17033

Deadline

September 24, 2015

Rate

\$269 single or double occupancy
(plus applicable taxes)

Rooms reserved after this date are at regular rates and will be based on availability. We recommend that you make reservations as early as possible.

The Hotel Hershey is one of America's landmark hotels. Situated high atop the town of Hershey, Pennsylvania, the 1930's hotel is a recipient of both the Forbes Four-Star Award and the AAA Four-Diamond Award. The Hotel Hershey is also a member of Historic Hotels of America.

An official resort of HersheyPark, The Hotel Hershey comes complete with a delightful spa and access to four distinctive golf courses. It's an elegant destination resort that's right in the heart of Hershey, the sweetest place on earth.

Access

Penn State encourages persons with disabilities to participate in its programs. If you anticipate needing any type of special accommodation or have questions about the physical access provided, please contact Continuing Education in advance of your participation.

Conflict of Interest

It is our policy to ensure balance, independence, objectivity, and scientific rigor in all of our educational programs. Faculty and course directors have disclosed relevant financial relationships with commercial companies, and Penn State has a process in place to resolve any conflict of interest. Complete faculty disclosure will be provided to program participants at the beginning of the activity.

Saturday, October 24

Credit

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Penn State College of Medicine and the PA Neurological Society. Penn State College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Sunday, October 25

Sunday's food functions sponsored by the PA Neurological Society

Credit

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Potomac Center for Medical Education and Rockpointe. The Potomac Center for Medical Education is accredited by the ACCME to provide continuing medical education for physicians.

The Potomac Center for Medical Education designates this live activity for a maximum of *3.0 AMA PRA Category 1 Credit™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For information about the accreditation of this program, please email: contact@potomacme.org.

Agenda / 9:00 a.m.–12:20 Noon

8:00 a.m. Check In and / Continental Breakfast

9:00

Addressing Challenging Cases in the Management of Disease-Modifying Drugs (DMD) Therapy for Multiple Sclerosis (MS)

Suhayl Dhib-Jalbut, MD

Apply newer MRI criteria and other prognostic measures to improve diagnosis and initiate DMD therapy earlier in the course of MS

Evaluate the mechanisms of action, efficacy and safety profiles of current and emerging DMD therapies to develop individualized MS therapies that optimize adherence and improve patient outcomes

Integrate evidence from recent diagnostic and prognostic biomarker studies to improve monitoring of disease activity and response to DMD therapy in MS

This activity has been supported through an independent educational grant from Teva Pharmaceuticals

10:10

The Emerging Science of Alzheimer's Diagnosis (AD) and Therapy

R. Scott Turner, MD, PhD

Explain the efficacy and safety features of current AD agents and develop treatment plans that optimize patient outcomes

Describe the changes being made in the assessment of AD and integrate appropriate tools and biomarkers into its diagnosis and treatment

Analyze the emerging data on the efficacy and safety of agents in development for AD

This program is supported through educational grants from Lilly USA, LLC and GE Healthcare

11:20

Updates and Advances in Epilepsy Management
Stephen Wong, MD, MS

Explain the efficacy and safety features of current anticonvulsant agents and develop treatment plans that optimize seizure control

Incorporate improved patient counseling and adverse event management measures to improve patient quality of life

Improve the rate and timeliness of appropriate referral of epilepsy

This activity is supported by independent educational grants from Eisai and Sunovion Pharmaceuticals Inc.

12:20 Noon Adjournment
